**Sustainability and Responsibility**

We, Kärcher Fashion GmbH, and its subsidiaries, are members of the BSCI (Business Social Compliance Initiative) and have committed ourselves to compliance with the BSCI Code of Conduct. It includes basic requirements for our manufacturing companies in terms of working conditions and social standards.

These standards include:
- The right to freedom of association, the right to collective bargaining, non-discrimination, fair remuneration, decent working hours, occupational health and safety, a healthy and safe working environment, protection against child labor, and prohibition of forced labor.
- The prohibition of forced labor, social protection for workers, and adherence to national laws protecting the environment.

We stand for precisely these standards and we want to work exclusively with companies that consistently adhere to the same values. By choosing Kärcher Fashion GmbH, you are opting for products that have been created under appropriate and fair conditions.

CUSTOMIZED CORPORATE FASHION

Trendy fashion and uniform corporate wear is a solid investment in your company’s future. With the additional and customized textile finishing of your company clothes the perception of your company to the outside world is reinforced and your market image enhanced.
### SIZE CHART

**NOTE:**
The measurements listed by us refer to the wearer (person) and not to the measurements of the respective garment!

If, for example, the chest measurement of a chef’s jacket is 101 - 104 cm, this means that this product is suitable for a person with these chest measurements.

If your measurements are somewhere between two sizes - we recommend ordering the larger size.

### MEASURING

The assistance of a helping person is recommended. We recommend to wear tight-fitting clothing or underwear. Measure directly on the body. The necessary additions for the comfort or functionality are taken automatically by us during the creation of the textiles.

Please consider the following helpful measuring recommendations:

1. **Chest width:** It is measured at the widest part of the chest horizontally around the body.
2. **Waist width:** It is measured at the thinnest point horizontally around the waist.
3. **Hip width:** It is measured at the widest part of the buttocks horizontally around the hip.
4. **Inside leg:** It is measured from the crotch along the inside of the leg straight down to the floor.
